# How to contribute to FIWARE

José Manuel Cantera Fonseca

Technological Expert. FIWARE TSC Member. Community.

[josemanuel.canterafonseca@telefonica.com](mailto:josemanuel.canterafonseca@telefonica.com)

First things first

<https://github.com/fiware>

| Follow the guidelines

[http://wiki.fiware.org/How\\_to\\_Contribute](http://wiki.fiware.org/How_to_Contribute)

[https://wiki.fiware.org/Developer\\_Guidelines](https://wiki.fiware.org/Developer_Guidelines)

Some rewards (bounties)

<https://www.firmware.org/bounty-programme>

And ...

You can be recognized as a FIWARE Active Contributor and be eligible to participate in the Technical Steering Committee

What can I develop and contribute?

<http://bit.ly/2h1VG02>

But not only code ... presentations ...  
blog articles ...

# Some extra ideas for getting a bounty

- Develop a QGIS plugin to display and manipulate NGSiv2 geolocated context data as GIS layers
- Enable NGSiv2 on STH-Comet
- Develop new data harvesters to harmonize real time open data “on the wild”

# Questions

| Thank you!
