Joining a Game Changer

Create a smart digital future with FIWARE Foundation
Joining FIWARE Foundation

FIWARE Foundation is a non-profit organization that drives the definition and encourages the adoption of open standards (implemented using Open Source technologies) that ease the development of smart solutions across domains such as Smart AgriFood, Smart Cities, Smart Energy, Smart Industry and Smart Water based on FIWARE technology.

Founded in 2016, the foundation has Atos, Engineering, Madinah City, NEC, Red Hat and Telefónica among its Platinum Members.

FIWARE is your first choice for building the smart digital future.

We're driving the smart digital future

We accelerate the emergence of innovative marketplaces of smart portable and interoperable solutions, guiding industries, governments, universities, and civil society to develop their smart vision.

We are a growing global community with a common effort of achieving a solid headway towards making FIWARE open source technology the best instrument for companies to reach their full potential and scale their activities to enter new markets and grow their businesses.

125+ Evangelists
8,000+ Developers using FIWARE technologies
645+ Members from 64 countries
250+ Powered by FIWARE solutions in its Marketplace
150+ Open Source projects
125+ FIWARE Hubs
645+ Open Source projects
40+ Global Strategic and Media Partnerships
2 Federated FIWARE Lab Nodes
35+ Global Leading Events p.a.
40+ Global Leading Events p.a.

FIWARE Foundation

is taking the lead in open source collaborative ecosystems setting new standards, on a global scale

Madinah City, Saudi Arabia, has partnered with the FIWARE Foundation to develop and promote Open Standards and Open Source technologies. With its Raseel Smart City Platform powered by FIWARE, we aim to improve the citizens’ quality of life and enrich visitors’ experiences.

ABDULRAHMAN IBRAHIM
Chief Data and Innovation Officer
Madinah Region Development Authority

We greatly appreciate FIWARE as a long-standing partner. Vienna in particular is an example of how FIWARE’s solutions help cities realize their digital visions. We are looking forward to further good cooperation.

BERNHARD SCHMID
Team leader Digital Technologies, Vienna Business Agency

Our involvement in FIWARE iHubs is definitely crucial and of great value! FIWARE Innova iHub and its ecosystem have the chance to enhance their innovation activities through collaboration, the participation in projects and also in key events and international fairs, like the Smart City Expo World Congress in Barcelona or the FIWARE Global Summit.

IRENE PROVVIDENZA
Business Developer, FIWARE Innova iHub

FIWARE is more timely than ever! Rule-based data flows, respecting values and protecting intellectual property, allowing monetization and yet fully maximizing the free flow of data is at the core of FIWARE. Technically, this cannot be achieved by close systems, and would be detrimental to a competitive digital economy. Basic data software infrastructures must be open and inclusive, that’s what FIWARE does best - already for more than 10 years.

PETER FATELNIG
Minister-Counsellor for Digital Economy Policy, Delegation of the European Union to Japan

While some may view FIWARE as a necessary standard for IoT interoperability and normalized data sharing, all of which are true and necessary, I view FIWARE as an ecosystem blueprint and marketplace for global exchanges of physical and digital goods and services. It is incredible to imagine developing a service or solution in North America that can be readily consumed in other parts of the world.

JEM PAGÁN
CEO, BluSky Consulting

FIWARE components with the AWS Smart Territory Framework, we have unlocked the potential of our existing infrastructure and harnessed the full power of sovereign and public Clouds. Through the adoption of this hybrid deployment, we not only comply with data sovereignty but also greatly enhance our ability to drive innovation.

LAURENT CURNIER
Project Manager, Data Platform Government of Monaco

An open and independent organization

By joining FIWARE Foundation you will be part of a collective movement aiming at creating an open, global, sustainable, standards-based, innovation-driven ecosystem for smart solutions in multiple sectors.

The FIWARE Foundation is open anybody can join contributing to FIWARE activities and rising through the ranks based on merit.

Our members are leading players in connecting the world to the future.

A future in which people can meet, work, live in a more enjoyable, resilient and efficient way. An exciting digital future where new business opportunities can flourish.

The use of FIWARE open source technology and key standards has brought forward multiple awesome solutions and appealing Impact Stories worldwide.

Read our Impact Stories
Global partnerships, collaborations...

The European Commission has selected the FIWARE Context Broker technology as a building block for the creation of cross-border digital service infrastructures.

The FIWARE Community is bringing contributions to the D6.8.RM definition regarding how data sovereignty or data brokering and monetization can be effectively materialized.

The FIWARE Community actively leads the work at the Context Information Management (CIM) ISG, where the NGSI-LD API specifications were defined and are now maintained.

A forum to design a new society by combining manufacturing and information technologies, IVI, has been working with FIWARE to create and develop IoT, promoting the digital economy by preventing fragmentation and harmonizing aspects related to IoT.

A non-profit organization delivering the world’s first scalable, fee-less and decentralized distributed ledger technology. Under the agreement, IOTA’s Tangle technology will serve as an immutable, trusted audit trail for relevant context data transactions in “Powered by FIWARE” architectures.

TM Forum and FIWARE Foundation launched the “Front-runner Smart Cities Program” aimed at defining a Common Reference Architecture and Data Models for Smart Cities, with the active involvement of cities worldwide. TM Forum’s Smart City Component suite uses FIWARE technologies.

FIWARE Foundation participates in the GSMA IoT Big Data Ecosystem project, working on the harmonization of APIs and data models for fueling IoT and Big Data ecosystems.

The Fast RTCS technology, integrated as a Generic Enabler of FIWARE has been adopted as the default communication middleware in ROS2.

The Authority in Digital Twin, the organization coalesces industry, government, and academia to drive consistency in vocabulary, architecture, security, and interoperability of digital twin technology. It advances the use of digital twin technology in many industries, from aerospace to natural resources. FIWARE joined the consortium in 2020.

FIWARE brings relevant baseline for the Minimal Interoperability Mechanism (MIM) defined by OASC, in order to support a Digital Single Market for Smart Cities.

After a scan of dozen digital platforms, FIWARE technologies were selected to work with the World Bank team for a knowledge project to support Govt. of India’s 100 Smart Cities Mission.

FIWARE Foundation participates in the GSMA IoT Big Data Ecosystem project, working on the harmonization of APIs and data models for fueling IoT and Big Data ecosystems.

The National Institute of Standards and Technology and FIWARE Foundation have partnered up in the definition of “Pivotal Points of Interoperability”, aiming at creating smart city solutions that are scalable, replicable, and standards-based.

The FIWARE Community is bringing contributions to the IDS-RAM definition regarding how data sovereignty or data brokering and monetization can be effectively materialized.

WeGo is an international organization comprised of city and local governments, smart tech solution providers, national, and regional institutions, wanting to transform cities into smart sustainable cities. Committed to the development, standardization, and promotion of FIWARE technologies in East Asia, it pushes for open standards and an open service platform.

FIWARE University Roadshow

FIWARE Foundation is actively integrating universities into the Open Source ecosystem. If you are a university, join this program to empower the next generation of Developers. Plan a free course at your university with FIWARE Foundation.

Equip students with the tools they need to succeed

We offer a special formula for universities: 60 minutes of (remote) training with our best experts on the latest FIWARE technology trends, including:

- Core Context Management and IoT Agents
- Sandbox Environment to learn and test your first Smart Solutions
- Data Models
- Identity Management and access control
- Data Persistence
- Big Data and Machine Learning
- FIWARE Architecture applied to the domains of Smart Cities, Smart AgriFood, Smart Industry, Smart Energy, and Smart Water.

Benefit from a collaborative environment

We offer a real collaborative environment, where international connections, research, and inventiveness come together thanks to the wide range of opportunities, such as:

- Collaboration in projects with universities worldwide.
- Meeting with 550+ members of our global FIWARE Community.
- Promotion by leveraging the global reach of FIWARE digital channels.
- Publication of your Impact Stories to give visibility to your achievements.
- Sharing of insights as a speaker at FIWARE events and trade shows.
- Playing a role at the next FIWARE Global Summit.
- Becoming a FIWARE member to integrate your University into the Open Source ecosystem. Associate Members are eligible to apply to the prestigious Scientific Advisory Board.

FIWARE Marketplacex

Are you looking to build and launch products and services to support your customers’ digital transformation journeys? Submit your offering and fast-track your way through the application process. As a FIWARE member, you enjoy the highest level of visibility, helping you to scale your business and get in touch with new potential partners and customers.

In recent years, FIWARE Marketplace, with its 250+ offerings, has grown into a unique place to connect, grow revenue, and identify customer needs and replicable solutions leveraging FIWARE technologies. FIWARE Marketplace offers FIWARE members an exclusive opportunity to also present their offerings at selected events and trade shows, together with FIWARE. You are the first to get promoted via both classical and digital marketing channels, and gain full access to the entire partner ecosystem. It is our goal to make sure your brand is positioned at the forefront with full product visibility to achieve maximum impact.

Joining FIWARE Foundation
Some highlights from our work with our partners

- In 2016, the European Commission published the Rolling Plan for ICT Standardisation in which ETSI was requested to create an ISG (Industry Specification Group), aimed at the definition of a standard Context Information Management (CIM) API with FIWARE NGSI as a candidate. In the beginning of 2017, ETSI created the CIM ISG which was successfully brought to market with the so-called ETSI NGSI-LD API specifications in January 2019.

- In 2018, the FIWARE Context Broker was selected as the new Connecting Europe Facility (CEF) Building Block, under the umbrella of Horizon2020, to help build the next generation of European digital public services.

- FIWARE Foundation and its members are actively contributing to the development of the International Data Spaces Association Reference Architecture Model (IDS-RAM 3.0).

- Together with its members, FIWARE Foundation is actively participating in standardization activities within ETSI (NGSI-LD API specifications), W3C (Web of Things), GSMA (IoT Big Data Ecosystem project) and TM Forum (Front-runner Smart Cities program).

Joining FIWARE Foundation

Enjoy your journey...

1. Meet FIWARE
   Explore our website and organization. Contribute and leverage your business by joining our committees and programmes.

2. Learn
   Our FIWARE online webinars and training programmes will get you up to speed; from single components to how to deploy them best in solutions.

3. Start the Developer’s Journey
   Get started with your Developer’s journey to get an active role and voice in the evolution of the FIWARE framework.

4. Meet FIWARE
   Learn
   Explore our website and organization. Contribute and leverage your business by joining our committees and programmes.

5. Join our Projects
   Enhance your experience by sharing knowledge and participating in projects including the development of products and adoption of the FIWARE reference architecture and data models.

6. Enjoy discounts and perks from our partners
   Discover the benefits and special discounts that you get by being a member. We have a growing number of exclusive offerings for you.

7. Join the FIWARE Marketplace
   Maximize your business potential. Certify your products and offer your services.

8. Become a FIWARE Evangelist
   Help foster the FIWARE adoption and pave the way for the future’s data-driven economy.

9. Get engaged in driving FIWARE
   Become a member of our Mission Support Committees and Boards where you can bring your experience and knowledge to steer the direction of FIWARE.

10. Network and Contribute
    FIWARE Global Summits annually gather the FIWARE community and technology users of open source under one roof. Contribute with your expertise.

11. Become a FIWARE Technical Expert
    Demonstrate your knowledge and offer your services.

12. Our digital innovation iHubs (FIWARE iHubs)
    Our digital iHubs can help you build a network of tech-enabling communities and encourage the formation of internet-based businesses also at a local level.

13. Enjoy discounts and perks from our partners
    Discover the benefits and special discounts that you get by being a member. We have a growing number of exclusive offerings for you.
Joining FIWARE Foundation

As a member, you benefit greatly from the extensive experience and network of our ecosystem made up of small, medium and large global enterprises, startups, innovation clusters, incubators, end-users, universities, ICT infrastructure providers, associations.

Check out what our members say about us

FIWARE enables its vibrant community of users and solution providers to design smart and interoperable solutions. We are proud to be part of and support this community with solutions like the Comet Framework, an open-source framework for building scalable, reliable and interoperable platforms leveraging FIWARE open-source technology and AWS Cloud services.

AGUSTÍN CÁRDENAS FERNÁNDEZ
Director of Business Transformation, Telefónica Empresas

Red Hat joined FIWARE to support the foundation’s mission to create open source, interoperable solutions for the edge across a wide variety of domains, from Smart Cities to Smart Industry. We are proud to see Red Hat solutions included in the FIWARE technical portfolio and value our collaboration and co-creation with this vibrant community.

LESLE HAWTHORN
Industry Verticals Community Lead - Office of the CTO, Red Hat

Telefónica Empresas wants to be a key partner in the digital transformation and FIWARE can help us achieve that goal. FIWARE Foundation stands out as the major driving force in creating an innovation ecosystem that, through an open-source platform, can solve real problems, using data gathered from different sources.

AGUSTÍN CÁRDENAS FERNÁNDEZ
Director of Business Transformation, Telefónica Empresas

As a FIWARE Foundation member, CINTEL has experienced a significant boost in the development of smart cities and territories, as well as precision agriculture solutions. FIWARE has provided us with an innovative ecosystem in the way we approach and solve our technological challenges more efficiently.

GARY COOPER MARTÍNEZ
PMP, CINTEL

FIWARE enables its vibrant community of users and solution providers to design smart and interoperable solutions. We are proud to be part of and support this community with solutions like the Comet Framework, an open-source framework for building scalable, reliable and interoperable platforms leveraging FIWARE open-source technology and AWS Cloud services.

ALI BENFATTOUM
Principal Product Manager Technical, AWS IoT

FIWARE Foundation is an instrument to create trust in the evolution of new markets. The more members we are able to attract (in the open-source community and at the industry level), the more this credibility can be seen as an added value to our customers when selling products based on FIWARE.

ORAZIO VIELE
Executive Vice President, System Integration Labs, Engineering

FIWARE Foundation stands out as the major driving force in creating an innovation ecosystem that, through an open-source platform, can solve real problems, using data gathered from different sources.

AGUSTÍN CÁRDENAS FERNÁNDEZ
Director of Business Transformation, Telefónica Empresas

Ubiverse and the FIWARE Foundation share a long-standing and strong partnership, shaping smart cities and empowering communities. Leveraging FIWARE technology we have designed solutions where technology harmonizes with humanity, building not just smart cities but resilient and vibrant smart communities that stand the test of time.

ANA PEREIRA
Communication and Dissemination Manager, Ubiverse
