Joining a Game Changer - Joining FIWARE Foundation
We’re driving the smart digital future

We accelerate the emergence of innovative marketplaces of smart portable and interoperable solutions, guiding industries, governments, universities, and civil society to develop their smart vision. We are a growing global community with a common effort of achieving a solid headway towards making FIWARE open source technology the best instrument for companies to reach their full potential and scale their activities to enter new markets and grow their businesses.

FIWARE Foundation

FIWARE Foundation is a non-profit organization that drives the definition and encourages the adoption of open standards (implemented using Open Source technologies) that ease the development of smart solutions across domains such as Smart Cities, Smart Energy, Smart AgriFood and Smart Industry, based on FIWARE technology. Founded in 2016, the foundation has Atos, Engineering, NEC, Red Hat, Telefónica and Trigyn Technologies among its Platinum members.

- 8,000+ Developers using FIWARE technologies
- 430+ Members from 50+ countries
- 180+ Powered by FIWARE solutions in its Marketplace
- 150+ Open Source projects
- 100+ Evangelists
- 21 FIWARE iHubs
- 35+ Global Strategic and Media Partnerships
- 10 FIWARE Lab Nodes
- 30+ Global Leading Events

FIWARE is your first choice for building the smart digital future.
FIWARE Foundation is growing rapidly

430+ global members* within four years

Platinum 6
Gold 50+
Gold SEU 15+
Associates 30+
Individual Members 325+

*as of August 2021

We are global (and growing at a fast pace)
Our key domains

- Smart Cities
- Smart Energy
- Smart Industry
- Smart AgriFood

For further information on our members*, visit: [www.fiware.org/about-us/join](http://www.fiware.org/about-us/join)

*The companies listed here are some examples and do not represent the total number of FIWARE Foundation members and strategic partners.
FIWARE Foundation is taking the lead in open source collaborative ecosystems setting new standards, on a global scale.
By joining FIWARE Foundation you will be part of a collective movement aiming at creating an open, global, sustainable, standards-based, innovation-driven ecosystem for smart solutions in multiple sectors.

The FIWARE Foundation is open: anybody can join contributing to FIWARE activities and rising through the ranks, based on merit.

Our members are leading players in connecting the world to the future. A future in which people can meet, work, live in a more enjoyable, resilient and efficient way. An exciting digital future where new business opportunities can flourish.

The use of FIWARE open source technology and key standards has brought forward multiple awesome solutions and appealing Impact Stories worldwide.

For more Impact Stories, visit: www.fiware.org/impact_stories
Global partnerships, collaborations...

The European Commission has selected the FIWARE Context Broker technology as a building block for the creation of cross-border digital service infrastructures.

The FIWARE Community is bringing contributions to the (DS-RAM) definition regarding how data sovereignty or data brokering and monetization can be effectively materialized.

The FIWARE Community actively leads the work at the Context Information Management (CIM) ISG, where the NGSI-LD API specifications were defined and are now maintained.

A non-profit organization delivering the world’s first scalable, fee-less and decentralized distributed ledger technology. Under the agreement, IOTA’S Tangle technology will serve as an immutable, trusted audit trail for relevant context data transactions in “Powered by FIWARE” architectures.

A forum to design a new society by combining manufacturing and information technologies, IVI has been working with FIWARE to create and develop IoT, promoting the digital economy by preventing fragmentation and harmonizing aspects related to IoT.

TM Forum and FIWARE Foundation launched the “Fast RTPS technology, integrated as a Generic Enabler of FIWARE has been adopted as the default communication middleware in ROS2.”

Korea’s Agency National Strategic Smart City Programme, KAIA-NSSC is responsible for the implementation of new smart city solutions to improve citizens’ welfare, Korea’s municipalities management system and promote sustainable growth. Both organizations will share knowledge of open sustainable ecosystems based on smart city platform technologies and explore opportunities in relation to data.

FIWARE Foundation participates in the GSMA IoT Big Data Innovation project, working on the harmonization of APIs and data models for fueling IoT and Big Data ecosystems.

GSMA

The GSMA IoT Big Data Innovation project was selected to work with the World Bank team for a knowledge project to support Govt. of India’s 100 Smart Cities Mission.

The European Commission has selected the FIWARE Context Broker technology as a building block for the creation of cross-border digital service infrastructures.

The National Institute of Standards and Technology and FIWARE Foundation have partnered up in the definition of “Minimal Interoperability Mechanisms (MIMs)” for the development of Smart Cities.

The FIWARE Community actively leads the work at the Context Information Management (CIM) ISG, where the NGSI-LD API specifications were defined and are now maintained.

Standardization: some highlights from our work with our partners

- In 2016, the European Commission published the Rolling Plan for ICT Standardisation in which ETSI was requested to create an ISG (Industry Specification Group), aimed at the definition of a standard Context Information Management (CIM) API with FIWARE NGSI as a candidate. In the beginning of 2017, ETSI created the CIM ISG which was successfully brought to market with the so called ETSI NGSI-LD API specifications in January 2019.
- Together with its members, FIWARE Foundation is actively participating in standardization activities within ETSI (NGSI-LD API specifications).
- In 2018, FIWARE Context Broker was selected as the new Connecting Europe Facility (CEF) Building Block, helping build the next generation of European digital public services.
- FIWARE Foundation and its members are actively contributing to the development of the International Data Spaces Association Reference Architecture Model (IDS-RAM 3.0).

What’s in it for you?
Joining FIWARE Foundation

Meet FIWARE
Explore our website and organization. Contribute and leverage your business by joining our committees and programmes.

Learn
Our FIWARE online webinars and training programmes will get you up to speed from single components to how to deploy them best in solutions.

Start the Developer’s Journey
Get started with your Developer’s journey to get an active role and voice in the evolution of the FIWARE framework.

Join our Projects
Enhance your experience by sharing knowledge and participating in projects including the development of best practices and adoption of the FIWARE reference architecture and data models.

Enjoy discounts and perks from our partners
Discover the benefits and special discounts that you get by being a member. We have a growing number of exclusive offerings for you.

Become a FIWARE Evangelist
Help foster the FIWARE adoption and pave the way for the future’s data-driven economy.

Become a FIWARE Technical Expert
Demonstrate your knowledge and offer your services.

Our digital innovation Hubs (FIWARE iHubs)
Our digital iHubs can help you build a network of tech-enabling communities and encourage the formation of internet-based businesses also at a local level.

...across the open (source) waters

Tell me more: Check out what our members say about us

"FIWARE Foundation has been doing outstanding work by providing shared resources and putting huge efforts into setting standards like NCSI-2. This allows Atos, as a system integrator and service provider, to offer an open data platform to cities and create more applications that are easily exchanged with other cities, thus supporting the Single Digital Market in Europe. Moreover, extending the data models is very important, as this allows us to create more cases, using special sensor technologies for cities. By joining the Foundation, you will join a growing group of movers and shakers that are paving the way for new solutions and services, driving innovation at an unmatched speed and scale.

ALBERT SEUBERS
Director Global Strategy IT in Cities, Atos"

"FIWARE Foundation is an instrument to create trust in the evolution of new markets. The more members we are able to attract (in the open-source community and at the industry level), the more this credibility can be seen as an added value to our customers when selling products based on FIWARE."

ACUSTÍN CÁRDENAS FERNÁNDEZ
Director of Business Transformation, Telefónica Empresas"

"We have been seeing the growing trend, not only in India, but globally towards the adoption of open source and universally interoperable solutions, based on open and widely accepted standards. FIWARE Foundation has done excellent work in this area. We are looking forward to a long-lasting collaboration to offer versatile, universally interoperable solutions.

ORAZIO VIELE
DG of Research & Innovation Engineering"

"NEC will provide advanced social solutions and contribute to the realisation of a super smart society (Society 5.0), for which FIWARE unique capabilities, including cross-industrial use of data and service collaborations, will play a crucial role.

YASUNORI MOCHIZUKI
NEC Fellow, NEC Corporation"

"FIWARE Foundation has been doing outstanding work by providing shared resources and putting huge efforts into setting standards like NCSI-2. This allows Atos, as a system integrator and service provider, to offer an open data platform to cities and create more applications that are easily exchanged with other cities, thus supporting the Single Digital Market in Europe. Moreover, extending the data models is very important, as this allows us to create more cases, using special sensor technologies for cities. By joining the Foundation, you will join a growing group of movers and shakers that are paving the way for new solutions and services, driving innovation at an unmatched speed and scale.
